

## Emotion Buffet and more creative ideas ...

Success by  
creativity!

Dear Business Partner,

The end of the season is approaching. That's why we would like to recommend our new buffet concept "Emotion" again.

Now it's the time to offer this unique concept to your customers in order to generate additional business in your markets.

### Settings that delight ...

With the innovative porcelain pieces from the Emotion collection you can create diverse and special buffet landscapes.

Two types of plastic baskets (2 colours) and melamine presenters (2 designs) complete the picture of an extraordinary buffet.

The newly shaped Gastronorm trays fit perfectly in the buffet concept.
